

REMARKS

The amendments made to the specification were made to claim the parent application and to correct an error in the originally filed specification.

The amendments made to the Claims were made to cancel the claims of the parent application and present new claims. Support for each of the newly added Claims can be found in the Specification. It is respectfully submitted that no new matter has been added by any of the amendments to the Claims.

It is submitted that the present amendment places the application in good form for allowance, and an early and favorable action for this application is respectfully solicited.

Respectfully submitted,

Ronald R. Snider
